HOLEX

ER collet for machine taps, ER 32, Nominal clamping ⌀ d: 8 mm

Order data

Order number	309458 8
GTIN	4062406254186
Item class	32Z

Description

Version:
· **The tap is clamping by a recirculating ball clamping mechanism.**
· **Integral quick-change device.**
· **Collets for thread tapping, similar to DIN 6499 / ISO 15488.**
Advantage:
Quick locking/unlocking by spring mechanism. No screw clamping required on the square drive flats of the tap.
Suitable for :
All standard ER collet chucks.
Note:
Clamps only the nominal ⌀. **Not compatible with the CENTRO P precision ER collet chuck**.
Overall length L: 49 mm
