Description

Version:

Market-leading oscillating tools in three different performance classes (SuperCut, MultiMaster, MultiTalent) in a new version with **Starlock tool arbor** (improved torque transmission of up to 35 % greater rate of progression of the work).

- **Virtually unlimited application possibilities (sawing, grinding, scraping, cutting, rasping) due to the oscillating mode of movement (low generation of dust).**
- **Stepless electronic speed control for optimum working.**
- **Very high quality and stability thanks to the metal gearbox and use of ball bearings and needle bearings throughout.**
- **Optimum handling due to ergonomic design with soft-grip inlays and low weight.**

Most suitable MultiTool for rapid work progress (for interior work and renovating) with bi-metal saw blade for wood, metal and plastics. Thanks to the StarlockMax arbor, you have access to around 180 FEIN accessories from the Starlock, StarlockPlus and StarlockMax performance classes.
