Description

Version:

High extraction power – efficient filter performance – quiet operation. Filter the process air in 3 steps:

- **Pre-filter for dust and larger particles.**
- **Combination filter for micro-particles.**
- **Activated carbon filter absorbs harmful gases.**

The system is fitted using a suitable bench holder. Accessories such as extraction arms and nozzles can be found in the online shop under No. 082306 – 082313.

Extraction power is set on the system at the touch of a button, individually for each extraction arm. If the filter needs to be changed, this is indicated by visual and acoustic signals.
