

**Carbide hole saw flat, Ø DC: 41 mm****Order data**

Order number	118505 41
GTIN	4045197956798
Item class	12C

Description**Version:**

Extremely strong and with perfect concentricity due to **drill crown and shank of one piece** (hardened).

Narrow carbide cutting edges with **positive rake** and **large clearance angle** provide good cutting performance at low cutting pressure.

Exchangeable centre drill, shank with 3 clamping faces.

Cutting width 1.9 mm for all sizes. Ø tolerance: + **0.15** / – **0.05** mm.

Dimension L: **all sizes = 11.8 mm.**

Application:

For use on stationary machines. Suitable for fibre-reinforced plastics (GRP and CRP).

Only for flat material up to 5 mm thickness.

Shank: Three drive flats shank

Shank Ø: 10 mm

Technical description

Overall length L _{tot}	11.8 mm
Shank Ø	10 mm
Nominal Ø D _c	41 mm
Version	flat
Tool material	Carbide
Standard	Manufacturer's standard
Shank	Three drive flats shank

Ø tolerance	–0.05 / 0.15 mm
Colour ring	without
Type of product	Hole saw
