

Carbide hole saw flat, Ø DC: 55 mm

Order data

| | |
|--------------|---------------|
| Order number | 118505 55 |
| GTIN | 4045197956880 |
| Item class | 12C |

Description

Version:

Extremely strong and with perfect concentricity due to **drill crown and shank of one piece** (hardened).

Narrow carbide cutting edges with **positive rake** and **large clearance angle** provide good cutting performance at low cutting pressure.

Exchangeable centre drill, shank with 3 clamping faces.

Cutting width 1.9 mm for all sizes. Ø tolerance: + **0.15** / – **0.05** mm.

Dimension L: **all sizes = 11.8 mm.**

Application:

For use on stationary machines. Suitable for fibre-reinforced plastics (GRP and CRP).

Only for flat material up to 5 mm thickness.

Ø tolerance: –0.05 / 0.15 mm

Shank Ø: 10 mm

Length L: 11.8 mm

Technical description

| | |
|--------------------------|-------------------------|
| Nominal Ø D _c | 55 mm |
| Shank Ø | 10 mm |
| Length L | 11.8 mm |
| Version | flat |
| Tool material | Carbide |
| Standard | Manufacturer's standard |

| | |
|-----------------|-------------------------|
| Shank | Three drive flats shank |
| Ø tolerance | -0.05 / 0.15 mm |
| Colour ring | without |
| Type of product | Hole saw |
