

**ER collet for machine taps, ER 32, Nominal clamping Ø d: 7 mm****Order data**

Order number	309458 7
GTIN	4062406254179
Item class	32Z

Description**Version:**

- **The tap is clamping by a recirculating ball clamping mechanism.**
- **Integral quick-change device.**
- **Collets for thread tapping, similar to DIN 6499 / ISO 15488.**

Advantage:

Quick locking/unlocking by spring mechanism. No screw clamping required on the square drive flats of the tap.

Suitable for :

All standard ER collet chucks.

Note:

Clamps only the nominal Ø. **Not compatible with the CENTRO P precision ER collet chuck.**

Overall length L: 49 mm
