

**ER collet for machine taps, ER 32, Nominal clamping Ø d: 9 mm****Order data**

Order number	309458 9
GTIN	4062406254193
Item class	32Z

Description**Version:**

- The tap is clamping by a recirculating ball clamping mechanism.
- Integral quick-change device.
- Collets for thread tapping, similar to DIN 6499 / ISO 15488.

Advantage:

Quick locking/unlocking by spring mechanism. No screw clamping required on the square drive flats of the tap.

Suitable for :

All standard ER collet chucks.

Note:

Clamps only the nominal Ø. **Not compatible with the CENTRO P precision ER collet chuck.**

Overall length L: 49 mm
