

REGO-FIX▲**Tool assembly measuring system TORCO-BLOCK, Type: TORQUE****Order data**

Order number	358645 TORQUE
GTIN	2050002050143
Item class	30W

Description**Version:**

- **Sturdy but lightweight body made from aluminium with integrated torque measurement. Display either as actually achieved torque or as a visualisation of the recommended tightening torque for a specific collet chuck type/clamping nut type, collet size or pull stud.**
- **For use with toolholders that have to be screwed to a specific torque, especially for collet chucks.**

Advantage:

- **Use of torque drive tools no longer necessary, commercially available assembly tools can be used.**
- **Always apply the right torque on the tool – do not over-tighten, but still ensure a secure grip.**

Application:

Unique, convenient and reliable tool assembly aid with integral torque display. Works for all **pliers-based set-ups**. Adapters available for all popular spindle interfaces.

Suitable for :

Tool arbors type **SK** (ISO 7388-1), **BT** (ISO 7388-2), **HSK** (ISO 12164-1), **PSC** (ISO 26623-1).

Supplied with:

Incl. indicator ring set No. 358647.

Optional extras:

Adaptor No. 358646, indicator rings No. 358647.

Note:

Order adaptor No. 358646 separately.

Length: 270 mm

Width: 170 mm

Height: 130 mm
