#### Description

##### Version:

**CaraFin diamond polishing tools** coated on one side with **mono-crystalline diamond**. The bonded diamond grit achieves significantly **higher effectiveness** than loose diamond grit in polishing pastes.

Soft polishing cloth for **contour-true mirror finish polished surfaces** on **soft and easily-scratched** materials.

##### Advantage:

Ancillary times for preparation and cleaning, such as are required when polishing pastes are used, are eliminated.

**Diamond polishing wipes** (microfibre) coated on one side with **mono-crystalline diamond**.

##### Application:

For quick, dry polishing by hand.
