

Garant**CaraFin Diamond polishing kit 5-piece, Type: SET****Order data**

Order number	557507 SET
GTIN	4062406112172
Item class	50N

Description**Version:**

Polishing set with new style diamond polishing tools. The **diamond grit** is attached securely and positively to a flexible substrate **without a bonding agent**. This means that the majority of the grit is available to act as abrasive material. The effectiveness of this arrangement is **significantly greater** than that achieved by loose diamond grit in polishing pastes.

Advantage:

- **Greater removal rate.**
- **Better surface quality.**
- **Ancillary times for preparation and cleaning such as are required when polishing pastes are used are eliminated.**

Application:

Ideally suited to manual **contour-true polishing of e pre-ground surfaces on all materials.**

Moulds optimally to the workpiece geometry.

- **Polishing strip D151 - preliminary polishing**
- **Polishing strip D64 - polishing**
- **Polishing strip D10 - finish polishing**
- **Polishing cloth (medium) D3 - gloss polishing**
- **Polishing cloth (soft) D1 - high gloss polishing**

Supplied with:

1× polishing cloth (medium) 180 x 90mm, coated with diamond grit D3, see also article 552790 D3

1× polishing cloth (soft) 180 x 75mm, coated with diamond grit D1, see also article 552785 D1

1× polishing strip 80x40x3mm, coated with diamond grit D10, see also article 557510 D10 (block) / 557521 D15 (self-adhesive strip) / 529115 D15 (polishing file)

1× polishing strip 80x40x3mm; coated with diamond grit D64, see also article 557510 D64 (block) / 557521 D64 (self-adhesive strip) / 529115 D64 (polishing file)

1× polishing strip 80x40x3mm; coated with diamond grit D151, see also article 557510 D151 (block) / 529115 D126 (polishing file)
