

Temperature scanner HG Scan PRO, Type: 007553

Order data

Order number	078325 007553
GTIN	4007841007553
Item class	07E

Description

Version:

Temperature scanner for sensing the temperature at the surface of the workpiece by means of infra-red measurement. Ideal determination of distance by laser. Acoustic and visual warning if the optimum temperature is overshoot or undershot. Setting in 10 °C steps.

HG Scan PRO with intelligent data exchange between the temperature scanner and hot-air blower. Power supply via the hot-air blower.

Complete temperature monitoring when working with temperature-sensitive workpieces.

The HG Scan PRO senses the temperature at the surface of the workpiece by means of infra-red measurement. Ideal determination of distance by laser. Acoustic and visual warning if the optimum temperature is overshoot or undershot. Temperature recording range of 0 – 300°C, setting in 10°C steps.

Suitable for :

Suitable for heat gun HG 2620 E.

Weight: 120 g

Temperature recording range: 0 - 300 °C

suitable for: HG 2620

Technical description

Weight	120 g
suitable for	HG 2620
Temperature recording range	0 - 300 °C
Power supply	Mains operated
Type of product	Temperature scanner
