

Screw extractor set, 16 pieces, with jobber drills in a metal case

Order data

Order number	082880
GTIN	4010995039882
Item class	04D

Description

Version:

Extractors of tough chrome vanadium molybdenum steel, jobber drills of HSS, burnished.

Application:

For extracting damaged or sheared-off screws with **right-hand or left-hand threads**, sizes M4 – M16.

Pre-drill with the drill supplied, then insert the screw extractor, push the ring spanner right down and extract the screw without tilting.

Content:

8 screw extractors (hexagon 2; 2.5; 3; 4; 5; 6; 8; 10 mm), 8 jobber drills (Ø 2.3; 2.8; 3.4; 4.5; 5.7; 6.8; 9; 11 mm), complete in a metal case with foam inlay.
