Description

Version:

The **3M™ 4910** is highly transparent and thus can be used for mounting backlit translucent signs, for synthetic resin-reinforced glass, metal, glass and materials with high surface energy (HSE) decorative materials and strips, nameplates and logos, mounting on panels and attachment of stiffening elements.

Double-sided high-performance **adhesive tape** of pure acrylate adhesive (VHB) for permanently strong bonds. High instant tack, high resistance to temperature, weather, UV and solvents. Excellent sealing function, vibration-damping.

Note:

Further 3M™ VHB™ tapes in different thicknesses and lengths are available on request.

The specified "best before" date for 3M™ products is in relation to compliance with the specified storage guidelines.
