

ARIANA**Portable refractometer, Display: ANALOG****Order data**

Order number	084320 ANALOG
GTIN	4037728721005
Item class	08J

Description**Version:**

Measuring range: 0 to 32 %, adjustable eyepiece, adjustable measuring range.

Application:

For **quickly** and **precisely** determining the concentration of emulsions. Suitable only for water-miscible cooling lubricants.

Supplied with:

Protective carrying bag, pipette, and operating instructions.

Note:

Refer to the correction factors for the cooling lubricants! Multiply the grinding emulsion by e. g. a factor of 2.1 (size ANALOG, i.e. if 5 % is shown, the true value is 10.5 %)
