

Absorbent fleece wipes, 0.4×0.5 m 10 pieces, Area of application: OIL

Order data

Order number	084373 OIL
GTIN	2050001742230
Item class	08J

Description

Version:

Oil and chemical absorbent fleece with **exceptional absorption capacity (up to 20 times its own weight)**, **very low disposal costs because of greatly reduced waste**. The absorbent fleeces are 100 % polypropylene and are **suitable for virtually all chemicals**. Significant improvement of safety and cleanliness in operation, neither liquids nor granules are spread on the ground. **Colour code system for distinguishing the wipes by application**.

Items of size **OIL** take up only oil (e.g. separation of oil and water, or use outdoors). Items of size **UNI** take up all liquids (e.g. oil, water, chemicals).

Individual wipes, perforated down the middle.

Wipes and rolls with **tear-resistant reinforced double-layer structure** for heavy-duty use.

Suitable also for use on the floor. Lint-free.

Scope of supply pcs./box: 10

Colour: blue
