

Absorbent fleece roll 0.4×15 m, Area of application: UNI

Order data

Order number	084382 UNI
GTIN	2050001710673
Item class	08J

Description

Version:

Oil and chemical absorbent fleece with **exceptional absorption capacity (up to 20 times its own weight)**, **very low disposal costs because of greatly reduced waste**. The absorbent fleeces are 100 % polypropylene and are **suitable for virtually all chemicals**. Significant improvement of safety and cleanliness in operation, neither liquids nor granules are spread on the ground. **Colour code system for distinguishing the wipes by application.**

Items of size **OIL** take up only oil (e.g. separation of oil and water, or use outdoors). Items of size **UNI** take up all liquids (e.g. oil, water, chemicals).

Rolls with **reinforced three-layer structure, 100 % lint-free**. The role is **folded three times** (13/14/ 13 cm perforated along the length) and supplied **in the dispenser box**. Cross perforations every 50 cm.

Scope of supply pcs./box: 1
