

Garant**Carbide hole saw flat, Ø DC: 54 mm****Order data**

Order number	118500 54
GTIN	4045197037466
Item class	11C

Description**Version:**

Extremely strong and with perfect concentricity due to **drill crown and shank of one piece** (hardened).

Narrow carbide cutting edges with **positive rake** and **large clearance angle** provide good cutting performance at low cutting pressure.

Exchangeable centre drill, shank with 3 clamping faces.

Cutting width 2 mm for all sizes. Ø tolerance: + **0.10** / – **0.05** mm.

Dimension L: **all sizes = 8 mm**.

Application:

For use on stationary machines. Suitable for fibre-reinforced plastics (GRP and CRP).

Only for flat material up to 4 mm thickness.

Ø tolerance: –0.05 / 0.1 mm

Shank Ø: 10 mm

Length L: 8 mm

Technical description

Nominal Ø D _c	54 mm
Shank Ø	10 mm
Length L	8 mm
Version	flat

Tool material	Carbide
Standard	Manufacturer's standard
Shank	Three drive flats shank
Ø tolerance	−0.05 / 0.1 mm
Colour ring	without
Type of product	Hole saw
