

Garant
Carbide hole saw flat, Ø DC: 70 mm

Order data

| | |
|--------------|---------------|
| Order number | 118500 70 |
| GTIN | 4045197037541 |
| Item class | 11C |

Description
Version:

Extremely strong and with perfect concentricity due to **drill crown and shank of one piece** (hardened).

Narrow carbide cutting edges with **positive rake** and **large clearance angle** provide good cutting performance at low cutting pressure.

Exchangeable centre drill, shank with 3 clamping faces.

Cutting width 2 mm for all sizes. Ø tolerance: + **0.10** / – **0.05** mm.

Dimension L: **all sizes = 8 mm.**

Application:

For use on stationary machines. Suitable for fibre-reinforced plastics (GRP and CRP).

Only for flat material up to 4 mm thickness.

Ø tolerance: –0.05 / 0.1 mm

Shank Ø: 13 mm

Length L: 8 mm
