| GTIN | 4045197514899 |
| Item class | 12D |

Description

Version:

Suitable for all popular magnetic core drilling machines. Very good cutting properties due to optimised cutting edge geometry. Easy to regrind. With Weldon shank - Ø 19 mm.

HSS uncoated – attractively priced alternative.

Application:

On mobile magnetic drilling machines or stationary pillar drilling machines to produce large holes in steel construction. The core drill cuts only a thin material ring. The drilled core is ejected by a spring loaded ejector pin.

Supplied with:

Without ejector pin.

Note:

- **Larger sizes, intermediate sizes, and HSS core drills with 110 mm cutting depth available on request.**
- **For the lubrication of core drills, we recommend high performance cutting oil (see No. 084210).**

Standard: Manufacturer's standard
