

GARANT Master Steel SPEED solid carbide drill, Weldon shank DIN 6535 HB, TiAIN, Ø DC h7: 19,2 mm

Order data

Order number	122416 19,2
GTIN	4045197791207
Item class	11E

Description

Version:

Developed for use with **very high cutting speeds**. Outstandingly suitable for machines with **low installed power** and high speeds.

- · Clear reduction in cutting forces due to special cutter geometry.
- · Coating for best wear resistance even at high process temperatures.
- · Polished flutes for good chip clearance.

A slim chisel point and the special arrangement of the 4 guide chamfers ensure high positioning and alignment accuracy. Optimised micro-geometry for increased working life and performance capability.

Recommendation:

Maximum drilling depth:

clamping slot length (see table) less $1.5 \times \text{nominal } \emptyset$.

Note:

Flute length $L_c = L_2 + 1.5 \times D_c$.

Standard: DIN 6537 K
Tolerance nominal Ø: h7
Number of cutting edges Z: 2
Tolerance nominal Ø: h7

recommended maximum drilling depth L₂: 50.2 mm

Overall length L: 131 mm Shank Ø D_s: 20 mm

Feed f in steel < 1100 N/mm²: 0.38 mm/rev.

Technical description

Feed f in steel < 1100 N/mm² 0.38 mm/rev.
