

## Power saw blade for Kasto, bimetal, Length L / TPI: 450/6

### Order data

Order number	171250 450/6
GTIN	7311518114145
Item class	16D

### Description

#### Version:

**BAHCO bi-metal** – a strip of HSS teeth welded to a flexible blade body of special steel using electron beam welding in a vacuum. In this way the saw blades are extremely hard at the tooth tips, but have **enormous flexibility** and are unbreakable even **at high feed rates**.

#### Note:

**Especially for Kasto machines** (clamping holes offset from 38 mm blade width).

**Important:** The instructions included with the saw blades must be followed in all details.

Tooth type: normal

Width: 38 mm

Thickness: 2 mm

Clamping hole Ø: 8.5 mm
