

Power saw blade for Kasto, bimetal, Length L / TPI: 700/6

Order data

Order number	171250 700/6
GTIN	7311518114732
Item class	16D

Description

Version:

BAHCO bi-metal – a strip of HSS teeth welded to a flexible blade body of special steel using electron beam welding in a vacuum. In this way the saw blades are extremely hard at the tooth tips, but have **enormous flexibility** and are unbreakable even **at high feed rates**.

Note:

Especially for Kasto machines (clamping holes offset from 38 mm blade width).

Important: The instructions included with the saw blades must be followed in all details.

Tooth type: normal

Width: 50 mm

Thickness: 2.5 mm

Clamping hole Ø: 10.5 mm
