| Order number | 179820 50X0,5 |
| GTIN | 4045197247001 |
| Item class | 17C |

Description

Version:

Top quality German product with **precision toothing** and **hollow ground mirror finish sides**. Compared to HSS saw blades, the cutting speed can be increased by a factor of 3 to 4.

DIN 1838 B coarse-toothed with **curved teeth to form B** with chisel edge. **For cutting larger cross sections and greater cutting depths**. These blades are suitable for more universal use due to the improved chip formation and larger gullets compared to the fine-toothed version.

Note:

- **Stable conditions of machine and component clamping are important prerequisites. If these conditions are disregarded the circular saw blade may break.**
- **The values for radial run-out and axial run-out are considerably better than the values specified in DIN 1840.**
- **Special sizes on request.**

Standard: DIN 1838

Thickness: 0.5 mm

Bore Ø: 13 mm

No. of teeth Z: 50

Technical description

| | |
|-----------------|--------------------|
| Bore Ø | 13 mm |
| Thickness | 0.5 mm |
| Ø | 50 mm |
| No. of teeth Z | 50 |
| Coating | uncoated |
| Tool material | Solid carbide |
| Standard | DIN 1838 |
| Type of product | Circular saw blade |
