

Fastening screw for hard and soft top jaws, for chuck type: 250

Order data

Order number	313420 250
GTIN	4019208055619
Item class	33R

Description

Application:

As the jaws can be changed or adjusted to the required diameter **in just a few seconds**, it is useful to have several jaw sets on hand ready for use at the machine. **This minimises set-up times.** The jaw units consist for example of several sets of base jaws with soft top jaws, which can be machined out to the required diameters. This rationalisation method is not only necessary for NC machines but also important for every lathe type.

Suitable for :

Top jaws No. 313210, 313250, 313220, 313300 and 313310.
 suitable for colour code: Röhm self-centring chucks and jaws
 Thread: M12×1.5
 Length: 30 mm

Technical description

Thread	M12×1.5
Length	30 mm
for chuck type	250
suitable for colour code	Schunk self-centring chucks and jaws
suitable for colour code	Röhm self-centring chucks and jaws
Type of product	Lathe chuck accessories
