**Description**
**Version:**

Suitable for efficient cooling systems such as GARANT eco, but also for other systems. Suitable for conventional toolholders.

High-quality alloyed case-hardening steels. Very high precision - contact surface and functional faces ground. Spring-mounted pressure pad for uniform clamping of the turning tools. Perfectly matched for the respective lathe. With secured ball injection nozzles up to 80 bar. Burnished for better corrosion protection.

**Application:**

Mainly for external machining.
