

Weldon element with compensation, long, For nominal Ø d: 7 mm

Order data

Order number	335725 7
GTIN	4045197801609
Item class	32P

Description

Version:

Plain toolholder, hardened and ground with **quick-release coupling**. Internal square to take taps and transmit the torque. Clamping mechanism prevents the tap being pulled out. Tensile/compression compensation each of 0.2 mm by means of compensation element. Clamping of the Weldon element either by means of the drive flats or the compensation element.

Advantage:

- · Attractively priced solution.
- · Sturdy, slim version.
- · Variation in the clamping and overhang lengths.

Application:

To take taps and others in a Weldon arbor.

Optional extras:

Compensation element No. 335730.

Note:

Minimum compensation function **only** in combination with No. 300415 and 335730. The standard Weldon chuck permits only rigid clamping, see No. 335740.

External Ø D: 16 mm Overhang A: 139 mm

Adjustment travel V: 10 mm Overall length L: 148 mm

Technical description

External Ø D	16 mm
Adjustment travel V	10 mm

Clamping range d	7 mm
Overhang A	139 mm
Overall length L	148 mm
Type of product	Tapping head
