

**Garant**
**Eccentric clamp, Thread M: M10**

**Order data**

|              |               |
|--------------|---------------|
| Order number | 370001 M10    |
| GTIN         | 4045197782373 |
| Item class   | 310           |

**Description**
**Version:**

- Hexagon steel washer with eccentric steel screw.
- Clamping of workpieces of any shape.
- 6 different geometries at the clamping faces: 1. Vee with 150° opening angle 2. Longitudinally grooved 3. Smooth step 4. Serrated 5. Smooth 6. Smooth coated.
- Requires less space, so few interference contours.

**Standard:**

- For clamping workpieces of any shape.
- 6 different geometries on the drive flats.

**Application:**

Suitable for clamping blanks and finished parts

**Note:**

A hexagon L-wrench size 7 is required!

Thread M: M10

Hexagon washer AF: 25 mm

Internal hexagon AF<sub>1</sub>: 7 mm

Eccentric travel S<sub>i</sub>: 1.6 mm

Dimension A: 12.7 mm

Washer height H: 10 mm

## Technical description

|                                  |                     |
|----------------------------------|---------------------|
| Thread M                         | M10                 |
| Internal hexagon AF <sub>1</sub> | 7 mm                |
| Washer height H                  | 10 mm               |
| Thread length L                  | 9 mm                |
| Eccentric travel S <sub>1</sub>  | 1.6 mm              |
| Dimension A                      | 12.7 mm             |
| Hexagon washer AF                | 25 mm               |
| Clamping force                   | 9 kN                |
| maximum tightening torque        | 28 Nm               |
| Type of product                  | Jig clamping system |
