

**Garant****Positioning clamping pin, Ød1×length l1: 16X25 mm****Order data**

Order number	370105 16X25
GTIN	4045197943781
Item class	31E

**Description****Advantage:**

- Thanks to the pre-loaded spring, there is no overloading on the internal mechanism, which is thus wear resistant.
- Vibration-damping.
- Self-locking, does not work loose due to vibration.
- High repetition accuracy  $\pm 0.03$  mm.
- Low installed height.
- Easy to use.

**Application:**

For quick clamping, fixing, adjusting, exchanging and securing of workpieces, plates, jigs etc.

**Material:**

Through-hardened steel, burnished

Width across flats 1: 30 mm

Width across flats 2: 6 mm

Length  $l_2$ : 13.6 mm

Length  $l_3$ : 10 mm

Holding force: 5 kN

for clamping plates  $\pm 0.05$ : 20 mm

## Technical description

Holding force	5 kN
Length $l_2$	13.6 mm
Length $l_3$	10 mm
Width across flats 2	6 mm
Width across flats 1	30 mm
for clamping plates $\pm 0.05$	20 mm
Type of product	Jig clamping system
