

# Inductive length measuring probe, radial, Type: GT22

### Order data

Order number	434777 GT22
GTIN	7630041112436
Item class	45A

# **Description**

#### **Version:**

Versatile precision length measurement probe.

- · Precision ball-bearing longitudinal measuring pin.
- · High precision due to electronic measurement signal amplification.
- · Clamping shank Ø 8 mm, can be clamped on the entire length.
- Due to ball bearings, resistant to fluctuations in temperature and lateral forces.
- Outstanding electro magnetic screening.

The TESA length measurement probe is characterised by excellent repeatability, consistency and a long working life.

#### **Function:**

IP65: Protected against jets of water from all directions and protected against penetration by dust (dust-tight), also completely protected against touching.

#### **Application:**

Universally applicable for all high precision measurement tasks, particularly in workshop and manufacturing shop areas.

## **Optional extras:**

Measuring tips, measuring force springs.

Calibration: Price on request IP Index of Protection: IP 65 Measuring range: ±1 mm Repeatability: 0.01 µm

Linearity error limit (L = meas. length in mm):  $0.2 + 3 \times L^3 \mu m$ 

Compatibility: TESA

Measuring force at electrical zero: 0.63 N

# **Technical description**

Compatibility	TESA
Measuring range	±1 mm
Repeatability	0.01 μm
Measuring force at electrical zero	0.63 N
Manufacturer's designation	GT22
Linearity error limit (L = meas. length in mm)	$0.2 + 3 \times L^3 \mu m$
Measurement pin lifting	mechanical / vacuum
Contact point travel	4.3 mm
Protective bellows	Nitrile
IP Index of Protection	IP 65
Calibration	Price on request
Type of product	Inductive length measuring probe
