

HOLEX®

Weld seam gauge with ABCD scale

Order data

Order number	477620
GTIN	4045197883780
Item class	42H

Description

Version:

Measuring range 0 – 20 mm. Reading accuracy 0.1 mm. Reading using reference line in the reading window. Measurement error largely eliminated by single-sided positioning of the gauge. Stainless steel. **Integral straight edge from 0 – 90 mm.**

Application:

For easy and quick measurement of the weld seam height. For measuring the flank angle α .

Technical description

Measuring range	0 - 20 mm
Scale divisions	0.1 mm
Application	Flank angle α
Type of product	Welding gauge
