| Item class | 48B |

Description

Version:

Cold rolled, hard spring feeler strip steel of maximum precision. From size 0.02, the strip thickness is continuously marked and cannot be wiped off (exception: for No. 478502 from size 0.08).

Stored in a practical dispenser; pull out like a tape measure. The desired length can be cut from the 5 or 10 m long strip.

C-steel – Carbon steel, material No. 1.1274, cold rolled, hardened, bright surface.

(Size 0.01 and 0.02 stainless steel).

Application:

In jig and tool building for aligning and adjusting machine parts, as a shim for aligning components, for tolerance measurements of all kinds, for checking fits and guides, for setting up printing rollers.

Material: Carbon steel

Error limit: $\pm 10 \mu\text{m}$
