

RENISHAW®

Probe module TP200, Type: EO**Order data**

Order number	494207 EO
GTIN	2050001957160
Item class	49F

Description**Version:**

The modular design of probe holder and removable probe modules allows the facility of exchanging manual and automatic probe modules without laborious recalibration. For probes with RENISHAW automatic holder (autojoint), a PAA adapter has to be used.

The TP200 probe module contains the electro-mechanical sensor, carries the probe inserts (connection thread M2) and permits the probe movement in $\pm X$, $\pm Y$, and $\pm Z$. Three user-specific probe modules are available.

Gauging force: Standard

Extension: 24 mm

Technical description

Extension	24 mm
Gauging force	Standard
Type of product	Probe module
