

RENISHAW®

**Probe module TP200, Type: SF****Order data**

Order number	494207 SF
GTIN	2050001957184
Item class	49F

**Description****Version:**

The modular design of probe holder and removable probe modules allows the facility of exchanging manual and automatic probe modules without laborious recalibration. For probes with RENISHAW automatic holder (autojoint), a PAA adapter has to be used.

The TP200 probe module contains the electro-mechanical sensor, carries the probe inserts (connection thread M2) and permits the probe movement in  $\pm X$ ,  $\pm Y$ , and  $\pm Z$ . Three user-specific probe modules are available.

Gauging force: Standard

**Technical description**

Gauging force	Standard
Type of product	Probe module
