Order data

Order number	517419 200
GTIN	4062406122294
Item class	52A

Description

Version:

The blanks are forged and ground; manufactured with an exact cut of even density and depth using special machines. These **non-convex files** have tooth profiles appropriate to each grade of file.

To protect the files, the set is arranged in a **strong transparent roll-up nylon wallet**.

Protected files cannot be contaminated and the cut is protected against damage; this ensures a consistently high removal rate, smooth file surfaces, and an extended working life.

2nd cut = Cut 2.

With ergonomic 2-component plastic handles.

Application:

Quality file for workshop use with long tool life and high removal rate.

Supplied with:

5-piece set of files with one each **flat, 3-square, square, half-round and round file**.

Standard: DIN 7261

Technical description

Length without tang	200 mm
Cut	1
Standard	DIN 7261
Number of individual files	5

Type of product

Engineer's file
