

Diamond needle file set, 5 pieces, 140 mm, Grit: D126 µm

Order data

Order number	529300 D126
GTIN	4007220017388
Item class	53B

Description

Version:

The blanks for these needle files are forged and ground from special steel. The diamond needle files are evenly spread with diamond powder of uniform grit and electro-bonded in place. The even diamond coating and the hardness of the diamond ensure best filing results. **Overall file length = 140 mm**; diamond coated length = 70 mm; shank $\varnothing = 3$ mm.

Application:

For precision finishing of cutting, stamping and press tools made of **hardened steel** or **carbide**. Also for working **glass, ceramic** etc. Use **light pressure** for filing, particularly at edges. Heavier pressure does not increase the removal rate but damages the file. Universal grit (standard files)

Supplied with:

In a plastic box.

5 pieces, 1 each file of shape 1; 3; 4; 5; 6.

Optional extras:

A **quick-release handle** for these files can be found under No. 519700.

Grinding medium code: D

Technical description

Overall length	140 mm
Grinding media	Diamond
Grinding medium code	D
Number of individual files	5
Packaging	Plastic case

Type of product
