Description**Version:**

CaraFin diamond polishing tools coated on one side with **mono-crystalline diamond**. The bonded diamond grit achieves significantly **higher effectiveness** than loose diamond grit in polishing pastes.

Polishing cloth for **contour-true high-gloss finish polished surfaces** on hard materials.

Advantage:

Ancillary times for preparation and cleaning, such as are required when polishing pastes are used, are eliminated.

Diamond polishing wipes (microfibre) coated one side with **mono-crystalline diamond**.

Application:

For quick, dry polishing by hand.
