Description

Version:

The **folded cloth rings** are wound round a metal core (mounting); **each set consists of three rings.**

The impregnation of the sisal cotton cloth rings permits higher effectiveness, more stability, longer working life, and better retention of paste. **Unipol®** Cloth ring wrapped around metal core (support).

Application:

The folded cloth rings can be clamped in any number and width. For use with polishing pastes. Can be used from smoothing up to high gloss polishing **of metals** (circumferential speed approx. 25 – 30 m/s).

Sisal cotton cloth rings, especially for smoothing (stainless steel, steel) and matting of non-ferrous metals.

Note:

For clamping mandrels for cloth rings see No. 555785.
