Item class	53M

Description

Version:

Synthetic nylon fleece impregnated with abrasive grit in synthetic resin bonding.

Flexible high-performance fleece with **extremely dense grit distribution** deep into the fibres of the material. The special type of fleece structure permits **more aggressive abrasive characteristics**, a very long working life without clogging and an even **more uniform finish**. The **enormous flexibility** enables use even in inaccessible places.

Advantage:

- **Adapts to the shape of the component.**
- **The open structure prevents clogging and reduces heat development.**
- **Consistent reproducible finish.**
- **Can be used wet or dry.**
- **Contains no materials that could cause corrosion.**

Application:

For manual cleaning and finishing, ideal substitute for steel wool products. **Fine / ultra fine:** for cleaning delicate surfaces, for repairing light scratches on metals. Also suitable for applying fine / very fine matt finishes to steels and non-ferrous metals.

Supplied with:

Pack of 25 Hand-Pads.

Iron, sulphur and chlorine constituents: < 0.1 %

Grit equivalent: 600 - 1000

Grit designation: very fine

Version: S Ultra Fine

3M designation: DF

Colour: grey

Technical description

Grit equivalent	600 - 1000
Grit designation	very fine
Colour	grey
Fleece structure	1000
3M designation	DF
Version	S Ultra Fine
Iron, sulphur and chlorine constituents	< 0.1 %
Width	114 mm
Length	228 mm
Product name attribute	114×228 mm
Type of product	Abrasive fleece pad
