

## Garant

Cutting disc, high-performance version EXTRA THIN, steel, Disc Ø: 125 mm

### Order data

Order number	563262 125
GTIN	4045197967510
Item class	51M

### Description

#### Version:

New **high-performance version** using state of the art technology with significant productivity advantages and excellent cutting qualities. **Increased cutting performance** due to rough free-grinding side faces; **improved service life**.

The thinness of the disc allows **very quick** cutting **with low force and optimum time saving**.

**Clean cut edges, virtually no burrs.**

Special type for **steel**, high performance version.

#### Specification:

##### A60S-BF.

maximum circumferential speed: 80 m/s

Shape description: flat

Bore Ø: 22.23 mm

Shape description: flat

Disc thickness: 1 mm

Bore Ø: 22.23 mm

### Technical description

maximum speed	12200 rpm
---------------	-----------

Specification	A60S-BF
Disc Ø	125 mm
Shape	41
Bore Ø	22.23 mm
Disc thickness	1 mm
Shape description	flat
for material thicknesses	3 mm
Grinding medium code	A
recommended approach angle	90 degrees
optimised for material	HSS
Propulsive equipment	Angle grinders
maximum circumferential speed	80 m/s
Type of product	Cutting-off wheel
