

Carbide cutting disc, Disc Ø: 76 mm

Order data

Order number	563418 76
GTIN	3165140827621
Item class	54B

Description

Version:

Thin cutting disc specially for restricted work spaces.
Steel disc with brazed-on carbide grit on the cutting edge.

Application:

For cutting wood, plastic, plasterboard.

Suitable for :

Cordless small angle grinder No. 077100 or **straight die grinder** with clamping mandrel No. 563070.

maximum circumferential speed: 80 m/s

Bore Ø: 10 mm

Disc thickness: 1 mm

Bore Ø: 10 mm

Technical description

Disc thickness	1 mm
Disc Ø	76 mm
Bore Ø	10 mm

maximum speed	20100 rpm
for material thicknesses	3 - 5 mm
Shape description	straight
recommended approach angle	90 degrees
optimised for material	Plastic
optimised for material	wood
Propulsive equipment	Straight die grinder
maximum circumferential speed	80 m/s
Type of product	Cutting-off wheel
