

HOLEX®
Compact deburring wheel (SiC), Disc Ø×Width×Bore Ø: 152X25X32 mm

Order data

Order number	568733 152X25X32
GTIN	4045197977441
Item class	52M

Description
Version:

Fleece compact discs create a **reproducible finish**, since fresh grinding grit is continually being exposed. **No change in the workpiece geometry, no grinding groove formation, long working life.**

Application:

On **bench grinders** or portable grinders with mandrel No. 556380 size 1–2 and reducer flange No. 568782. Suitable grinding wheel dresser No. 568785.

Deburring disc made of wound fibre fleece. **For cleaning off larger burrs** on pressed parts, for **rounding** hollows and edges without creating secondary burrs.

Grinding medium code: SiC

Bore Ø: 32 mm

Grit designation: fine

Degree of hardness: extra hard

Width: 25 mm

Bore Ø: 32 mm

Version: 9S fine

Technical description

Grinding media	Silicon carbide (SiC)
Width	25 mm
Disc Ø	152 mm
Grinding medium code	SiC
Version	9S fine
Degree of hardness	extra hard
Bore Ø	32 mm
Grit designation	fine
Type of product	Compact disc
