

HOLEX®**Compact deburring wheel (SiC), Disc Ø×Width×Bore Ø: 203X25X51 mm****Order data**

Order number	568733 203X25X51
GTIN	4062406288624
Item class	52M

Description**Version:**

Fleece compact discs create a **reproducible finish**, since fresh grinding grit is continually being exposed. **No change in the workpiece geometry, no grinding groove formation, long working life.**

Application:

On **bench grinders** or portable grinders with mandrel No. 556380 size 1–2 and reducer flange No. 568782. Suitable grinding wheel dresser No. 568785.

Deburring disc made of wound fibre fleece. **For cleaning off larger burrs** on pressed parts, for **rounding** hollows and edges without creating secondary burrs.

Grinding medium code: SiC

Bore Ø: 51 mm

Grit designation: fine

Degree of hardness: extra hard

Width: 25 mm

Bore Ø: 51 mm

Version: 9S fine

Technical description

Version	9S fine
Width	25 mm
Grinding media	Silicon carbide (SiC)
Grit designation	fine
Bore Ø	51 mm
Grinding medium code	SiC
Disc Ø	203 mm
Degree of hardness	extra hard
Type of product	Compact disc
