

**HOLEX®****Compact deburring wheel (SiC), Disc Ø×Width×Bore Ø: 203X51X76 mm****Order data**

Order number	568733 203X51X76
GTIN	4062406288631
Item class	52M

**Description****Version:**

Fleece compact discs create a **reproducible finish**, since fresh grinding grit is continually being exposed. **No change in the workpiece geometry, no grinding groove formation, long working life.**

**Application:**

On **bench grinders** or portable grinders with mandrel No. 556380 size 1–2 and reducer flange No. 568782. Suitable grinding wheel dresser No. 568785.

Deburring disc made of wound fibre fleece. **For cleaning off larger burrs** on pressed parts, for **rounding** hollows and edges without creating secondary burrs.

Grinding medium code: SiC

Bore Ø: 76 mm

Grit designation: fine

Degree of hardness: extra hard

Width: 51 mm

Bore Ø: 76 mm

Version: 9S fine

**Technical description**

Grinding media	Silicon carbide (SiC)
Disc Ø	203 mm
Bore Ø	76 mm
Width	51 mm
Grit designation	fine
Version	9S fine
Degree of hardness	extra hard
Grinding medium code	SiC
Type of product	Compact disc
