

3M Scotch-Brite™

**Compact finishing wheel (SiC), FS-WL, Disc Ø×Width×Bore Ø: 203X25X51 mm****Order data**

Order number	568741 203X25X51
GTIN	2050001762177
Item class	53M

**Description****Version:**

Fleece compact discs create a **reproducible finish**, since fresh grinding grit is continually being exposed. **No change in the workpiece geometry, no grinding groove formation, long working life.**

**Application:**

On **bench grinders** or portable grinders with mandrel No. 556380 size 1–2 and reducer flange No. 568782. Suitable grinding wheel dresser No. 568785.

Finishing disc made of wound fibre fleece. Creates a **fine, glossy finish**, for example, for manufacturing hydraulic cylinders, turbine blades, cutlery etc.

Grinding medium code: SiC

Bore Ø: 51 mm

Grit designation: fine

Degree of hardness: medium

Width: 25 mm

Bore Ø: 51 mm

Version: 6S fine

**Technical description**

Degree of hardness	medium
Version	6S fine
Grit designation	fine
Disc Ø	203 mm
Bore Ø	51 mm
Width	25 mm
Grinding medium code	SiC
Grinding media	Silicon carbide (SiC)
Product name attribute	FS-WL
Manufacturer's designation	FS-WL
Type of product	Compact disc
