

3M Scotch-Brite™

Compact finishing wheel (SiC), FS-WL, Disc Ø×Width×Bore Ø: 203X51X76 mm

Order data

Order number	568741 203X51X76
GTIN	2050001661531
Item class	53M

Description
Version:

Fleece compact discs create a **reproducible finish**, since fresh grinding grit is continually being exposed. **No change in the workpiece geometry, no grinding groove formation, long working life.**

Application:

On **bench grinders** or portable grinders with mandrel No. 556380 size 1–2 and reducer flange No. 568782. Suitable grinding wheel dresser No. 568785.

Finishing disc made of wound fibre fleece. Creates a **fine, glossy finish**, for example, for manufacturing hydraulic cylinders, turbine blades, cutlery etc.

Grinding medium code: SiC

Bore Ø: 76 mm

Grit designation: fine

Degree of hardness: medium

Width: 51 mm

Bore Ø: 76 mm

Version: 6S fine

Technical description

Version	6S fine
Grit designation	fine
Degree of hardness	medium
Disc Ø	203 mm
Bore Ø	76 mm
Width	51 mm
Grinding medium code	SiC
Grinding media	Silicon carbide (SiC)
Product name attribute	FS-WL
Manufacturer's designation	FS-WL
Type of product	Compact disc

Accessories

Pair of aluminium flanges suitable for bore Ø 76 mm	568782 76
