

PUK®

General-purpose hacksaw "Puk Vario" with general-purpose blade (310) Ergonomic handle

Order data

Order number	581230
GTIN	4010124150129
Item class	58Z

Description

Version:

Small and handy, good cutting performance.

With fixed ergonomic handle. Strong frame for high blade tension.

Handy small bow saw, good cutting performance.

The bow saw with its prominent bow frame is characterised by the u-shaped bow which tensions the saw blades. The limitation in depth of cut of hand bow saws is presented by the distance from the blade to the bow. This frame shape permits the use of particularly slim saw blades, which in other frame shapes would be liable to buckle when subjected to cutting movements with the force in alternate senses or other than in the pulling sense. Thanks to the thin hacksaw blades the metal cutting effort required is reduced, because of the small cutting width. Thus this type of saw is the classic standard for hacksaw work in metalworking.

Supplied with:

Including **general-purpose saw blade** for metal, aluminium, wood and plastic. Blade length 150 mm.

Blade length: 150 mm

Overall length: 260 mm

Technical description

Overall length	260 mm
Blade length	150 mm
