

Fret saw frame (without saw blade), Type:

Order data

Order number	581300
GTIN	4010124490300
Item class	58Z

Description

Version:

Sturdy varnished frame made of 13 mm steel tube. Depth of cut 320 mm. Clamps with wing nuts; varnished wooden handle.

The bow saw with its prominent bow frame is characterised by the u-shaped bow which tensions the saw blades. The limitation in depth of cut of hand bow saws is presented by the distance from the blade to the bow. This frame shape permits the use of particularly slim saw blades, which in other frame shapes would be liable to buckle when subjected to cutting movements with the force in alternate senses or other than in the pulling sense. Thanks to the thin hacksaw blades the metal cutting effort required is reduced, because of the small cutting width. Thus this type of saw is the classic standard for hacksaw work in metalworking.

Technical description

Handle material	Wood
without saw blade	yes
Cutting depth	320 mm
Type of product	Fret saw frame

Accessories

Fret saw blade pack, 12 pieces for metal working Type 0	581310 0
