

Mitre saw with length adjuster and wood saw blade, Blade length: 550 mm

Order data

Order number	581905 550
GTIN	4005568333207
Item class	58Z

Description

Version:

Die-cast aluminium table with wear-resistant tubular guide, glides without noise, with resilient stroke limitation. Easy and straightforward setting up of the item to be cut. Saw blade guide adjustable; high strength, closed saw frame handle. High, grooved rear plate for secure workpiece positioning. With length adjuster (applicable on both sides) for serial cuts of same length. Automatic centring for mitres of 90°, 45°, 30°, and 22.5°.

All intermediate angles can be set without restriction.

Cutting width B 90°: 160 mm

Cutting height H: 120 mm
