| Order number | 627470 0,9 |
| GTIN | 4013288032089 |
| Item class | 63F |

Description

Version:

Ergonomically configured multi-component handle with smooth-running **rotating cap** (for fingertip pressure during precision work). Optimally shaped **quick turning zone** for fast, efficient screwdriving and **power zone** for transferring higher torques.

Blades of high-quality tool steel, surface matt chrome-plated, black tip. **Hex-plus profile** prevents deformation of the screw head and transmits more torque.

Application:

For precise, efficient screw driving operations for electronics applications. Also ideal for all sensitive setting and adjustment work.

Blade length: 40 mm

overall length: 137 mm
