

Torque multiplier in a plastic case, maximum output capacity: 1300 Nm

Order data

Order number	659980 1300
GTIN	2050001691538
Item class	66D

Description

Version:

Mechanical manual torque multiplier for controlled screw tightening. Multiplier and support of high-quality steel. With overload shut-off to protect the transmission. **Input drive** with internal square socket for drive tools such as a ratchet, T-handle, torque wrench. It is sensible to operate the device with a torque wrench, so that the maximum load and the screw torque values can be checked. **Output drive** with external square for holding sockets (preferably use impact sockets due to the high torques).

Extremely precisely machined transmissions with ground gears and honed bores guarantee exact and consistently reproducible torque multiplication. Unique accuracy of not less than ± 4 %. Very compact and lightweight design, exceptionally long working life, and low maintenance.

Advantage:

Torque multipliers allow the transmission of higher torques with a correspondingly shorter lever arm.

Note:

Alternative reaction plates for No. 659980 size 2000 and 7000 available on request. No. 659980 size 2000 available on request with electronic measured value sensors.

Length L: 210 mm

Height H: 126 mm

maximum input capacity: 260 Nm

Torque multiplication / effective force multiplication: 1:5

recommended torque wrench / tightening range: 300 Nm

Number of supports (reaction plates): 2

Technical description

Drive square	3/4 inch
maximum input capacity	260 Nm
recommended torque wrench / tightening range	300 Nm
Overload protection	yes
Torque multiplication / effective force multiplication	1:5
Non-return valve	no
Ø D	108 mm
Weight	3.8 kg
Square drive	1/2 inch
Number of supports (reaction plates)	2
maximum output capacity	1300 Nm
Length L	210 mm
Height H	126 mm
Measurement technology	mechanical
Measuring accuracy	4 %
Type of product	Torque Wrench
